SECTION - A

Reading Section (Marks : 10)

- I. Read the passage given below carefully and choose the correct option :

Water is one of the most important natural resources. With the rising population there has been an increasing pressure on the earth's resources. Scarcity of water has been felt throughout the country. Efforts have been made to collect water by building dams. Wells have also been dug to create groundwater structure. But this is not enough. Wise conservation of water is needed. One of the most popular ways of conservation is rainwater harvesting. It means collecting rainwater on the roofs of buildings and storing it underground for later use. This method can raise the level of groundwater and also increase water supply. Another method is waste water harvesting. Water from kitchens and bathrooms is collected and cleaned. It can then be used for purposes other than drinking.
